

WORKSHOP

# WHAT LEADERS AVOID, ORGANIZATIONS INHERIT

Exclusive opportunity to meet  
**ANN ASKENBERGER**

For the first time in Prague **NOVEMBER 12-13, 2026**

## Every organization has a shadow.

It exists in the gap between what people say and what they actually do. Between declared values and everyday behavior. Between what leaders see – and what they don't.

In this workshop, Ann Askenberger explores how unseen patterns shape leadership, decision-making and culture. Through her honey-ghost-trap® method, participants uncover the blind spots that influence teams, relationships and performance.

The goal is not to become a better leader.

The goal is to lead with greater awareness, clarity and impact.

Because every culture reflects what its leaders are willing – and unwilling – to see.

*The workshop will be exclusive and in private setting.*
